## Building a sustainable future

### PANELISTS

#### **Professor Simon Pringle – Chair**

Simon has 28 years experience in commercial strategy, innovation and sustainability. He is an independent Coach and Management Consultant and was formerly Managing Director of Project Rome, a consultancy that worked with blue chip organisations and CleanTech innovators across multiple sectors. An Honorary Professor at the University of Edinburgh Business School, Simon is an Associate Fellow of Chatham House and specialises in the alignment of sustainability and regenerative business models with commercial strategy, brand and reputation.

#### **Andrea Carpenter**

Andrea is a Director of Diversity Talks Real Estate, and a writer and communications consultant in the property industry. She is currently working as a consultant for the Urban Land Institute on its C Change programme, which is designed to help speed up and scale up decarbonisation in the European real estate industry. As a Director of Diversity Talks Real Estate, Andrea helps raise the visibility of under-represented groups in the industry through the stage and media. On the writing side, her book about the history of the modern European property industry, *High Rise and Fall*, was published by Routledge in September 2018.

#### **Tarquin Henderson**

Tarquin heads Echo Research's business development, supporting the Group CEO to build Echo's presence in new and existing markets. Tarquin has over 25 years' experience in corporate and marketing communications working within management consultancy, financial and corporate advisory and directly in industry. Over the last 10 years he has worked in the sustainability and renewable energy sector with a focus Environmental and Social Governance (ESG).

#### **Steven Lloyd**

Steven leads ESG & Sustainable Investment Advisory Services at Arup. Helping accelerate the essential shift in global investment towards climate action and broader sustainable development objectives, building the case for investment in sustainable and resilient projects and helping create the enabling policy and incentive frameworks. Involved in the global development of best practice in sustainable investment, working alongside institutions such as the World Economic Forum, the Green Finance Institute, and global coalitions such as the Coalition for Climate Resilient Infrastructure.

#### **Sam Stacey**

Sam is a construction industry leader and writer on construction innovation. He has a unique perspective and a deep heritage in the built environment, having served on various boards, including the BRE, Construction Innovation Hub and Active Building Centre, and advised UK government and a number of leading construction companies. From 2010 he was Innovation Director at Skanska UK Plc, where he drove research, business improvement and design management. Sam previously worked with government as Challenge Director for Transforming Construction at UKRI and is now implementing his vision in delivery sustainable, high-quality buildings via Stacx International Ltd.
